\* If left blank we will assume standard specification (please refer to product binder for standard specification and additional options)

\*\* In order to conform to child safety legislation: Your chain drop must be at least 150cm less than your installation height

**IMPORTANT** - All fabric to be laminated must be at least 5cm wider than the blind and 35cm longer than the required drop of the blind. If you require a base contour, then the fabric must be 70cm longer. If joins are necessary, please allow additional fabric for the pattern repeat in addition to the above allowances.

**IMPORTANT** - Due to the nature of laminated fabrics, the depth of fabric around the roller is larger than with normal fabrics. Laminated roller blinds are supplied on 32mm, 40mm or 45mm diameter tubes, we will select the most suitable barrel diameter, based on the size and weight of the blind. If you have a preference of barrel diameter, please inform us in the "Any additional information" field above.
