All blinds are supplied unlined as standard, fabrics marked with an asterisk (*) can be supplied with lining. We recommend that dim-out and black-out fabrics are lined to reduce pin holes. *Due to the loose structure for weave we strongly recommend Multicolour Natura and Multicolour Panama are lined.

For Standard Lining add 10%, for Blackout Lining add 15% to the pricing tables above.

For electric operation, either with system SG 2345 Battery or SG 2350 Mains operation please add the difference in hardware cost to pricing tables above. If SG 2345 is being supplied with above fabrics, please check fabric weight is within system limitations

SG 2345 Pricing example:	Made to measure Roman, using PG1 Fabric at 1.2m wide x 2m drop =	£731.00
	Remove price of SG 2305, white hardware at 1.25m wide =	£109.50
	Add on price for SG 2345 hardware at 1.25m wide =	<u>£740.50</u>
	Total price =	£1362.00 (Category 'A')

RECOMMENDED RETAIL PRICES INCLUDING VAT @ 20%

SG 4905 Roller Blind System

Covered Wave Heading

Available at an extra cost of £42.00 per metre (width of track).

(Please consider that the additional fold fabric does mean that the maximum possible curtain drop will be slightly reduced. This flap uses 170mm of additional fabric which impacts on the maximum drop possible for curtains without turning and joining. So if you are specifying particularly long curtains please check first). Also consider that the thickness of the heading will increase slightly and therefore the stack size.

Fabric Joining Information for Wave and SWISS Pleat Curtains

By reducing the number of joins the overall curtain appearance improves. The table below indicates the maximum drop available without joins for each fabric.

Max drop 170cm	Max drop 200cm	Max drop 240cm	Max drop 260cm	Max drop 280cm	Max drop 290cm	Max drop 300cm
Valere	Reflex	Colorama 1 Alu *Somnia *Leviso *Leviso Light	Oscurante Someo	*/**Colorama Dimout *Multicolour Dimout *Deep	Colorama 1 Multicolour Colorama 2 Multicolour Colorama Acoustic Colorama Acoustic Multicolor Polyflax *Multicolour Natura *Multicolour Panama	Colorama 1 Colorama 1 Bioactive Colorama 1 Eco Colorama 2 Colorama 2 Bioactive Colorama 2 Eco

We recommend (for Wave) that if dim-out and black-out fabrics have to be made with joins (due to the drop required - see above table) then they should be lined to reduce pinholes.

Our Wave curtain heading system is designed to encourage fabric to hang in a soft, continuous wave form from the top to the bottom of the curtain. However, the weave and design of some fabrics does not allow this floor-to-ceiling shape when using the 60mm glider cord. Therefore, we do not recommend the following fabrics are specified with 60mm Wave glider-cord:

*Leviso *Colorama Dimout
*Leviso Light *Multicolour Dimout
*Somnia *Deep
*Multicolour Panama *Multicolour Natura

** Colorama Dimout is not suitable for drops over 2.8m.

CHILD SAFETY

Chains and cords from curtains or blinds have been identified as a potential risk to small children. Changes to European standards EN 13120, 16433 and 16434 make it illegal to sell blinds or curtain tracks with potentially hazardous loops and chains without some sort of safety device. Silent Gliss offer a choice of ways to 'Make it Safe'.

The Silent Gliss integral Child Safety Device is available on some of our chain and cord operated systems.

This sophisticated device separates the chain from the operating mechanism should a weight or force of 6kg be applied, complying fully with child safety standard EN 13120, 16433 and 16434.

Supplied at an additional charge of £16.50.

Alternatively, if the Child Safety Device is not selected then all Silent Gliss corded blinds and curtain tracks are supplied as standard with a cord retainer. This device is fixed to the wall by a single screw and keeps the cord or chain under tension.

The cord retainer is supplied free of charge.

Silent Gliss also have breakaway components for the inner cords on our Roman Blinds. These attach the cord/tape to the cross-rods (or lift points) and bottom bar. These parts cause the cord to break away from the blind should a weight of 6kg be applied.

The Architects of Silence

Silent Gliss is the leading global supplier of premium interior window treatments. Since 1952 we have been tirelessly committed to the development of the worlds' smoothest, quietest systems using state of the art technology.

Driven by customer needs, Silent Gliss offers functional and durable products. Expert technical advice coupled with installation and support services complete the offer. Silent Gliss stands for innovative, sustainable, tailor made solutions, exceptional design and first-class quality.
